## Foreword

"There are many signs in the heavens and the earth, from which people turn their faces." (Qur'an, Surah Yusuf, 105)

Man, created by the Powerful Creator, enters the third millennium with great achievements in various fields of science. However, if a person looks carefully at himself and the life around him, he will see the miracles sent to him by God and will understand its essence.

The countless miracles we encounter are tiny particles of the great sacred mystery of the Almighty. God, who loves the person He has created, always gives various means to save people from the misfortunes and difficulties they face, shows the way of salvation to the hopeless and helpless people, and brings people to their hopes. From time to time, the Powerful Creator sent prophets and miraculous people to the earth to save people from calamities.

God gave such miraculous people a share of His power, endowed them with miraculous abilities, and sent them to mankind as a cure for suffering.

In order to save people from diseases, the great Creator sent medicine for every affliction through doctors who came from the people. Mrs. Zarifa Mayilova, known as "X-ray woman", a gift of God to Azerbaijan, is the owner of healing hands and radiant eyes, guarding the health of the people and solving their problems.

Numerous articles and essays have been published in media periodically about Zarifa Mayilova, taking into account the requests of patients. All this is based on real facts. Among them are hundreds of scientists and teachers, doctors, poets, and others, ranging from simple to famous people. Turning to Zarifa Mayilova, the owner of the miraculous

---

healer, the heartfelt words, good wishes and feelings of gratitude of thousands of people who have regained their health do not run out.

It is interesting that at such a high level of development of science and technology, it is not yet scientifically possible to reveal the essence of Zarifa Mayilova's unusualness, her healing hands, the X-ray ability of her eyes penetrating into the depths of the human body. It is no coincidence that world-renowned American scientists, who study the extraordinary abilities of man, confirmed the divine ability of Zarifa Mayilova, called her "X-ray woman" and called her "the miracle of the century."

This extraordinary ability of Zarifa Mayilova has been analyzed by well-known experts from the United States, Germany, Turkey, Romania, Russia, the Netherlands, Iraq, Iran and other countries. Scientists from all these countries expressed their admiration for Zarifa Mayilova's divine ability.

As a result of all these scientific researches, they are official certificates and honorary diplomas presented to Zarifa Mayilova by many world scientific research centers.

Considering these facts, it is impossible not to feel deep regret. Leading countries of the world invite Zarifa Mayilova to treat people in their countries by allocating official medical centers abroad and spending a lot of money on it. In our country, Zarifa Mayilova is still undervalued. However, any state that invites him is ready to create such conditions for her. Unfortunately, we often do not appreciate the precious children we have in time. Zarifa Mayilova is a divine national treasure of the Azerbaijani people! That is why, like our national wealth, Zarifa Mayilova must be valued in time. Zarifa Mayilova, a philanthropist who loves martyrs, IDP families, orphanages, soldiers, and loves to help, could at least have a non-traditional treatment center set up by the state. However, "doctors" from China, Korea, India and other countries, who are not recognized in the

---

medical world, are engaged in non-traditional medical treatment in our country.

One of the reasons for many tragedies that befell us as a nation is our inability to properly assess our national values. Human history has always given and will give real value to real people, precious sons of the homeland. The real proof of this price is the respect and great love of thousands of people for Zarifa Mayilova, a beautiful person, a patriotic Azerbaijani woman. This love and respect cannot be achieved by any means!

Zarifa Mayilova, like a Felix bird in the true sense of the word, spends her labor and skills for the health of the Azerbaijani people with patience and perseverance, giving joy to thousands of people. People like Zarifa Mayilova are a real source of pride and national pride for our people!

## From the author

God always loves and cares for the people he has created. At times, our Creator has endowed humans with extraordinary abilities. From the time of the creation of mankind, people have been born and say to people with extraordinary powers, "God has given skill." Such people are distinguished by high moral values, love of God and purity in their hearts.

As a nation, the Great Creator has endowed us from time to time with divine personalities who can save our people from hardships, despair, and disease. It is a good deed to show miracles, to do useful deeds for the people and the nation, to leave a mark on oneself, to give a name that the people will always respect. Such benevolent people always move forward in the rays of the holy light, towards holy deeds.

The book we have created today is about a beautiful person, a caring, virtuous, simple, humble, sincere Azerbaijani lady.

We met Mrs. Zarifa Mayilova about 15 years ago, in 2001. This invaluable person, like many others, has cured our family. He repeatedly saved me, my wife and children from the inevitable serious operation with 1-2 sessions. As a result of Zarifa Mayilova's bright eyes and healing hands, the quiet life of our family was restored and we rejoiced. We have repeatedly expressed our gratitude to Zarifa Mayilova.

We are proud to have written such a book about Zarifa Mayilova, who, despite her divine power, is an example of a real Azerbaijani woman who is simple, humble, sincere, chaste and virtuous!

For many years, when we went to see Zarifa Mayilova, we usually met young, middle-aged women. When I saw the sadness, despair, and hopelessness on the faces of women, I could not bear to talk to these women. As I witnessed the sad stories, tears, and silent cries of these

---

women, my heart broke. The lives of these ladies were different. Someone's wife supported him. Someone's wife was indifferent to her pain and treated her with contempt. Some of them felt guilty in their husband's house and heard their mother-in-law, father-in-law and sister-in-law scold them. Fates were different, but the pain was the same: not having children...

As a woman, a mother of two children, I probably suffered inwardly with these beautiful women, perhaps because I did not experience such pain. What was this pain? Every young girl has a cherished dream: to get married according to the local tradition. Let's move to the house of the person we love with a white wedding dress reminiscent of a white dove, be happy, and have a child! Dear, build a warm family hearth. Unfortunately, the women I knew were united by the inability to be the only mother, but a great pain for a woman.

Among these women were women who had been longing for children for 5 years, 7 years, and even 17 years. How hard it was to see the sad faces of women who had spent large sums of money in medical facilities for years but could not be cured, and who were in despair. Their life stories were sad, and there were even brides who became pregnant several times but lost their children after a difficult pregnancy.

Waiting for a child with longing, joy, impatience, eagerly buying him clothes and toys, and then ... How hard it was to lose a child when he was young! Losing a child, no matter how old he or she is, is the greatest pain a mother can have.

Now their last hope, the door of salvation was Mrs. Zarifa! I watched the women sitting in the waiting room. Hopefully, some of their acquaintances told each other that they had a child after many years of treatment with Mrs. Zarifa, they found consolation and consoled each other. I entered the reception of Mrs. Zarifa and saw several women who came out with tears

---

of joy. When I talked to Mrs. Zarifa about it, she gave me letters of gratitude and joy from the mothers.

During these 15 years we have known each other, I have witnessed Mrs. Zarifa completely cure various diseases, starting from the early stages of cancer. However, when treating a person, Zarifa Mayilova, with the help of God, gives him life. When a woman is given the opportunity to become a mother, she gives her life, children, family happiness and bliss.

Our Prophet Muhammad said: "Paradise is under the feet of mothers." The divine skilled Zarifa Mayilova gives such a sacred summit to the women of Azerbaijan!

Anyone who goes to her reception can see a picture of a small part of the hundreds of babies born with the help of Zarifa Mayilova's divine skill. What a picture of a happy mother, a happy family!

Mrs. Zarifa is talented and hardworking. She does not withhold her divine ability from anyone. She is a benevolent person by nature. She stands at the highest peak of humanity due to her hard work and humanity.

In one of our conversations, Zarifa Mayilova showed us the invitation to stay and work in Germany. When we told her that this proposal was good, she replied: "Most of those who come to me are people with disabilities. I am their last hope, I cannot leave them. God gave me this power for them. This is because I love my homeland as much as I love myself. Wherever I go, I will return to my homeland. I will die without a homeland! "

Our Powerful Creator has bestowed Zarifa Mayilova on millions of people as a miracle of happiness. Mrs. Zarifa is a pure peak for our nation, a sense of national pride!

Dear readers, perhaps you have understood why we call our book "Zarifa's grandmother's grandchildren". In this book, you will get acquainted with the sad fates of beautiful, charming, chaste Azerbaijani women, who have been burning with longing for children for years, and tired of painful

---

years, and you will see the happiness of motherhood. The book contains letters of thanks from each lady.

We are grateful to God for giving us Zarifa Mayilova, the owner of unique methods of examination and treatment in the world!

I'm Imamverdiyeva Guluza who married in 1996. Like all young women, I wanted to get married and have children. I always cherished the baby of my dreams. However, I did not have children for several years after my marriage. We consulted many doctors, but to no avail. The doctors even said that I would never be a mother.

One of our acquaintances advised us to go to the reception of Zarifa Mayilova. My husband and I were received by Zarifa Mayilova. Mrs. Zarifa told us that we would have a child. Words cannot describe how I felt at that moment. It was as if Zarifa Mayilova shed light on our dark world. After 3 sessions, my daughter was born on 30.06.2000. Mrs. Zarifa gave her name to our daughter. My daughter is currently in 10th grade. Two years later, on November 11, 2002, my second daughter, Masuma, was born. She is currently a seventh grade student. On October 9, 2004, the arrival of my son brought even more happiness to our family. We named our son Ali. Ali is currently in the sixth grade.

My family and I are very happy today. On behalf of my family, I am always grateful to Mrs. Zarifa Mayilova for this happiness.

## Dear lady who gave me motherhood

I Hashimova Gulara was born in 1971 in the city of Baku. My address is Pirallahi settlement of Baku. I got married in 1996. I haven't had a child for 7 years. I was taken to mullahs and doctors. But to no avail. I was tired of everything. I said I didn't want to go to the doctor anymore. God will give me a child if I am destined or not. I prayed to God day and night, I did not despair of God. Thank God he did not return my empty hands to him. He heard my pleas. One day my sister told me that her husband's relatives had no children. They went to a doctor named Zarifa Mayilova. Zarifa Mayilova treated them and had a child. After hearing this, my family and I decided to go with him. On February 10, 2002, we went to see Zarifa Mayilova. She turned off the light, then turned it on again after a while. She said the problem was with my wife. She treated my wife for 3 days. Two months later, she said, "Come." He looked at us again after 2 months. She

---

told me that whenever you became pregnant, you would come to me. I got pregnant after 4 months. I came to her. After looking at me, she told me the good news I had been waiting for for 7 years. I went to him until I was a child. She treated me every month. Even after the birth of the child, I came to Zarifa Mayilova. I'm still coming. I never took the child to the doctor.

Zarifa's grandmother treated him in every disease. He loves Zarifa's grandmother very much. My son was born on March 1, 2003.

During these 12 years, I have seen how people who came to Zarifa Mayilova 's place were healed and thanked God. I both heard and saw the miracles of Zarifa Mayilova. I always thank God that I was lucky to see Zarifa Mayilova, an angel with healing hands and eyes.

I love children very much. The more I thank God for giving me the opportunity to be a mother, the more I thank Zarifa Mayilova it won't be enough! May God protect Zarifa Mayilova!

## **Thank you for healing my daughter, Zarifa Mayilova!**

Fortunately, Zarifa Mayilova was given to us by God. We bow before His healing hands. My daughter Hajiyeva Turana Agil was born on August 3, 2014. So far there have been no problems. On November 13, where he stood, where she ate bread, her right leg began to swell. We brought it to Baku. We went through the device, nothing came out. The neurologist prescribed treatment, said he was nervous and would pass. But it was 1 month, it did not pass. They gave Zarifa Mayilova's address. I took him to her. Zarifa Mayilova said she was Parkinson's. Even if I take it, I do not promise 100% that it will be completely corrected. I take it for sake of God. Thanks very much for the greatness of God, and for the healing hands of Zarifa Mayilova. In three days, he said, there was progress. He did the session. We returned to the district (we are in Ujar). Ten days later, in the evening, my daughter came and told me that her leg's shaking had stopped. Our joy knew no bounds. It opened in the morning. We cut our sacrifice. We took Zarifa Mayilova 's sacrifice and locked her door. Our prays and sacrificies were accepted. All the sacrifices and prays made at Zarifa Mayilova 's hearth are accepted. May God heal all the sick. I want all patients to come to Zarifa Mayilova, to recover quickly and be healed. I am indebted to Zarifa Mayilova all my life. As a mother, she brought me back to life, she brought my daughter back to our family. May God protect Zarifa Mayilova. On behalf of our family, we wish him good health. My heart is full. It doesn't end with writing. I'm so happy to met you in my life, Mrs. Zarifa. Thank you for the rest of my life.

Hajiyeva Ilaha (Ujar district)

I'm so grateful to you, Mrs. Zarifa.

**Abasguliyeva Gulay**

We got married in 2006. We have not had children for 4 years. During these 4 years I have consulted many doctors and I have always longed for children. For the first two years, my dream of becoming a mother never stopped. But the next two years broke my hopes. My heart was burning with the desire to be a mother. During this time, 4 of my children perished. No treatment helped me. Then we applied to Zarifa Mayilova, and after the first session I became pregnant, and thanks to Zarifa Mayilova 's treatment without any medication for 9 months, my child was born alive. Now I have a 5-year-old son and a 3-year-old daughter.

I express my deep gratitude to Zarifa Mayilova. I wish Zarifa Mayilova good health and strength in her healing hands. Because, Zarifa Mayilova put an end to 4 years of motherhood.

Years pass. Yes, they will. In order not to be forgotten, God creates his chosen servants called writers and poets. Our burden is very heavy. In order to lift these heavy burdens, God brings us together with a skilled servant like Mrs. Zarifa Mayilova, who has healing hands. Children of the childless, giving hope to the hopeless. In short, in order to keep alive what they have created, our Invisible One, who is visible to our eyes, who is our helper with light, gave our people Mrs. Zarifa, a skilled, caring mother from Kalbajar. I am grateful to my one-kidney father for his long life and to my brother Fariz's twin children. To that Mother, to Mrs. Zarifa, the mother of each of us. X-ray, healer, beautiful person, how many kind words you can say to that mother, whom I have kissed hands many times, looking under

---

the black tulle, with attractive eyes, magic, kindness. Galib and Gulchin is the decoration of our life. God gave them to us because of her mother's hands of Mrs. Zarifa.

I have spoken extensively about this in my book. I just wish Mrs. Zarifa a long life. Long live the creation!

Hey lands,

The souls of the elders come and rest,

In the place of my Zarifa, hey lands.

Secret income comes from the unseen,

In the place of my Zarifa, hey lands.

Haray! - I said, she came to my help,

Sad days are over, thankfully.

My wounds are over,

In the place of my Zarifa, hey lands.

Galib was grandmother's heart,

Gulchin was sweet wishes of aunt.

When the good keeps the sieve,

In the place of my Zarifa, hey lands.

## My Guardian Angel who gives me happiness

I live in Agamammadli village of Imishli region, Kazimova Konul Mahammad gizi. I have been married for 16 years. I have a daughter who was 5 years old. I wanted a child for 4 years, but it didn't happen. During these 4 years of marriage, my biggest dream was to become a mother. But it turned out to be an unattainable wish for me. During these 4 years, I was examined by a doctor many times and received treatment. I took a lot of medicine and injections. There was no help. I wanted a child. My sister-in-law Siyatel advised me in Baku to Zarifa khanum Mayilova, a doctor named Academic X-ray woman, and took me to Zarifa khanum's reception. Mrs. Zarifa examined me and said there was nothing serious. I came to the session 3 days later and got pregnant a month later. I came once a month for 9 months. Mrs. Zarifa was examining me with her healing hands. Thanks to Mrs. Zarifa, I ended these 9 months without drugs and injections. A beautiful daughter was born. We named her Sarah. My joy knew no bounds. I became the mother of the second girl.

## **Thanks to Mrs. Zarifa, I became a mother of 3 children**

Dear fans of Mrs. Zarifa. I am one of those lovers. I am forever grateful to Mrs. Zarifa for helping me and my family's health.

I have 3 children and I am indebted to Mrs. Zarifa for the health of these children. When I got pregnant with my first child, I suffered a lot. I went to many doctors. Doctors said the child was in a tube. The doctors told me to destroy the baby and remove my tubes. And they said I could not get pregnant again. My family and I were very upset. We took refuge in God. My God opened the way for me, I came to Mrs. Zarifa. Mrs. Zarifa promised me and my baby health and did the same. My baby fell from the tube into the uterus and began to develop. And a completely healthy baby was born.

I got pregnant with my second baby 1 year and 6 months later. My eyes were weak. Even one eye was too weak to see. At the first birth, the doctor told me that my second child was at risk. Because I could lose my eyesight. But in spite of everything, Mrs. Zarifa protected me with her treatment. I gave birth to my second child in a completely normal way.

I became pregnant with my third child 8 years later. During these 9 months, I came to Mrs. Zarifa and gave birth to a completely healthy and comfortable girl. Eight months after the birth of my child, my baby passed into a small pool. Unfortunately, Mrs. Zarifa was not here at that time. He had gone to Moscow. I was very scared. And I took the child to a private hospital. There they performed many examinations on the child. They found a hearth on the child's head. They prescribed a lot of injections for the child. I did none. I waited for Mrs. Zarifa. Mrs. Zarifa came and looked at my baby. Diagnosed with small spots on my baby's head. Which can be no fear. My baby was also weakened as a result of the temperature. The doctors checked again my child. As a result, nothing was found in the beginning. However, a month ago, a problem was found on the child's

---

head. The doctor told me that you had treated him, he was sucked. But I did not take any injections. It was Mrs. Zarifa who cured my baby. My baby is now living a healthy, problem-free life. I think the greatest dream of every woman is to be a mother, to have a healthy child. This joy was given to me by God in heaven and by Mrs. Zarifa on earth.

I will be indebted to Mrs. Zarifa for the rest of my life. It is good that God has sent such a kind person to us and helps all the sick and makes them happy.

May God be pleased with you, Mrs. Zarifa !!!

Sincerely, Tarana

I was at Mrs. Zarifa's reception and she said she would treat me. She treated me and I got pregnant. I was under his control for 9 months. I did not use any injections or drugs. ## You are our place of hope, Mrs. Zarifa!

***Əliyev Hüseyn***

My eldest son was 10 years old. How many times have I been pregnant since then, and I couldn't finish my pregnancy. It was because there were germs in the blood. After my last pregnancy, in May 2009, I went to see Mrs. Zarifa. She took me 3 sessions. She said: Let there be one child, let the body be cleansed. That's what happened. I got pregnant. Every month for 9 months I was at the reception of Mrs. Zarifa, she said that the child is good, everything is fine. That's what happened. On February 15, 2010, a boy was born. We named her Hussein on the advice of Mrs. Zarifa. He is a very healthy, unusual, very intelligent child, and his actions amaze people.

Thanks to Mrs. Zarifa, a miracle of the Powerful Creator, our family has achieved its dream. We were given a beautiful boy. I am powerless to express my gratitude to Mrs. Zarifa.

May God be pleased with Mrs. Zarifa. May God make her black and white children happy. May God create the light of her eyes and the healing of her miraculous hands. May all those who long for children be given children. May God grant him health and long life. God bless him. May all the sick be healed.

Every woman who starts a family wants to be a mother. Like all married women, I have longed to be a mother. Over the years, I have undergone numerous examinations and received various treatments. Unfortunately, these treatments had no effect. I was helpless. My husband and I completely lost hope of becoming parents. But God met us with Mrs. Zarifa.

We have known Mrs. Zarifa since 2000. We hoped for God in heaven and Mrs. Zarifa on earth and were healed. Accurate diagnosis, correct treatment. I always tell my relatives around me about Mrs. Zarifa's extraordinary strength and ability. She is also a fair, caring and kind

## Dear lady who forgave us the world

I have been thinking about it for 5 years. I wonder if I will be able to raise a child and bring him up? Each time, my hopes were dashed. My suffering for months was in vain. My husband is a laborer, and we were hired. The money he earned was in injections and doctors. But to no avail.

During the examination in the 7th month of my first pregnancy, I was told that the child had died at the Mingachevir hospital. I was released by artificial birth. The end of my second pregnancy was also unsatisfactory. At the end of 9 months, the child was born, lived 3 days, and he perished. When I was 8 months old, my third pregnancy was the birth of a baby who weighed 3.5 kg and lived 18 hours. So I had 3 sons, I could not live the joy of any of them I suffered a lot. Doctors said there was a germ and they could not treat it. My hopes were dashed everywhere. An acquaintance living in Baku gave the address of Zarifa Mayilova. We came to her

---

reception, and when we saw that those who have not had children for 20 years came to Mrs. Zarifa with their babies in their arms, we were convinced that we had come to the right address. Thus, our turn approached, and when Mrs. Zarifa x-rayed me with her bright eyes, she said, "Oh, my daughter, you have received so many unnecessary treatments." She treated me. A daughter was born, we named her Zahra.

Dear Mrs. Zarifa! When my daughter was born, I was overjoyed. I have the happiness of motherhood. Her joy, the warmth of a baby's breath gave us the world. We kiss the healing hands of Mrs. Zarifa, who gave us happiness. May God not see it too much for our people.

## I have a grandson

I want to share my life story with you. As a mother, I lived with the desire to see my child. But this dream was not our destiny. Medical treatment did not work, and time passed. I heard about Mrs. Zarifa's divine power and we decided to come to her reception.

After seeing that hundreds of women who came to Mrs. Zarifa's reception became mothers after her treatment, we also turned to her. After visiting the hearth of Mrs. Zarifa, a beautiful granddaughter was born. Now Sabina is 6 years old. With the help of Mrs. Zarifa, happiness and bliss came to my son's hearth. There is nothing more precious for a mother than the happiness of her child! Mrs. Zarifa! I kiss your healing hands!

I express my deep gratitude to Zarifa Mayilova, the owner of this divine skill and special love for people. I write these lines over and over again, but with great love!

## Hope to be a parent

On behalf of all mothers, I bow to Zarifa khanum, on behalf of all mothers, and kiss her healing, magical and miraculous hands of Mrs. Zarifa, by the grace of God, gave children to our children who have lost hope of becoming parents.

My son also looks at him as he longs for a child, because I can't do anything, my heart bleeds pus instead of blood, and my whole being is rotten. I visited various clinics for 5 years and examined and treated my son and daughter-in-law. I took him to Iran twice. He was treated with every diagnosis. We did not see any results. One day, my neighbor, Mrs. Haqiqat, said that her daughter, who had not had children for seven years, was preparing to become a mother with the help of a woman of divine power, and she took us to her.

At the first meeting, this angelic woman, with her charming, commanding voice, meaningful eyes that affected my whole being, lit a light of hope in my brain and heart. He said that my son was completely healthy and that my daughter-in-law was suffering from improper treatment. He completely restored the almost decaying fallopian tubes in a few sessions. Now my bride is preparing to become a mother. With our last hope, our last refuge, the cause of God and the treatment of Mrs. Phenomenon, joy and happiness came to a family.

How long I have lived, I am grateful to you, Mrs.Zarifa! May God keep you safe and may he not be seen by our nation and people, may he protect you and your family! Amen!

## **The longing for a 7-year-old child has come to an end**

I had a happy family, everything was fine. My husband and I wanted to have children. But the years passed, and we had no children. Medical treatment did not help either.

During the 7 years of my marriage, I did not have any children, no matter how many times I went to the doctor and was examined in hospitals. The doctors finally said that you would not have children. I was under a lot of stress. The treatment I received over the years and the nervous breakdowns I experienced left me exhausted. I completely lost hope. But I was praying to God. One day, one of my friends suggested that there was a woman named Zarifa, whose eyes were stronger than X-rays, and who gave birth to thousands of families.

On the advice of my friend, my wife and I went to see Mrs. Zarifa. She examined us. She said that my husband did not need treatment, and I did not have anything serious, but I received the wrong treatment.

I got pregnant after only 3 treatments. The child was born, became a boy. After many years of longing, I embraced the baby I cherished in my life! This longing lasted for 7 years. I thank you for this happiness, Mrs. Zarifa! We are grateful to Mrs. Zarifa for the rest of my life, who gave our family the joy of having children!

***Shukurlu Nazli***

I Nurana Shukurova married in July 2011. In January 2013, my daughter Nazli was born. From the first month of my pregnancy, I gave birth to a healthy child without going to any doctor or taking any medicine, only with the treatment of Mrs. Zarifa. Currently, Nazli is 3 and a half years old. Then, in September 2015, my second child, my son Niyaz, was born. Then, from the time I found out I was pregnant, I received Mrs. Zarifa's treatment every month for 9 months until the baby was born. Thank God that we have 2 healthy children thanks to God in heaven and Mrs. Zarifa on earth. Our people need you. We love you. I think the biggest longing in the world is the longing for children. I have experienced this longing. I am very happy to be a mother today. I am the mother of a son with two roses. Our thanks to Mrs. Zarifa are endless. May God protect her, her family and us.

I am indebted to Mrs. Zarifa all my life. May God not deprive us of her. Amen!

I do not go to any doctor because I know Mrs. Zarifa. Because my head hurts more than doctors.

I got married in 2001. I lived with the dream of becoming a mother. I did not have a child for 4 years. There was no doctor or clinic I did not go to during these 4 years. Finally, one day I heard about Mrs. Zarifa and came to her reception. Mrs. Zarifa received me. And she said you will have a child. Believing her, I came to her sessions for 6-7 months.

Finally, in April 2005, our family was overjoyed when my daughter was born. I am always overwhelmed when I think of those days. Because only those who suffer from such a longing for a 4-year-old can know. I can't describe the joy I felt when I first took my baby in my arms.

Now I have 2 children. At the age of 11 my daughter Aliyeva Rena and at the age of 8 my son Alizade Mohammad. I am always indebted to God in heaven and to Mrs. Zarifa on earth. May God grant her long life and health.

May God make all her wishes come true. May God not see her much to us.  
Amen. I will fight for her all my life.

## I'm grateful to her healing hands.

I had heard of a miraculous man, but I had not seen a miraculous person ever. One of these miraculous persons is Mrs. Zarifa. One of the incomparable miracles of Mrs. Zarifa is to give joy to those who have longed for children for many years, without the use of any drugs of modern medicine. None of those who came to him returned disappointed. One of such people is me - Gulnar Nursoy.

I was married, but I had no children. One day my mother-in-law told me that there was an X-ray woman named Zarifa Mayilova. She treats with her hands without injections and drugs. My husband and I were at his reception. She said that my husband did not need treatment. She told me that I had a cold and started treatment. I got pregnant after a few sessions. Mrs. Zarifa's healing hands brought joy to our family. We had a son. My son is currently 9 months old.

---

I am indebted to Mrs. Zarifa for life. This beautiful lady changed my life. With God's help, she gave me a child. She made me a mother. She saved my family and my marriage.

May God protect you, Mrs. Zarifa, a beautiful mother, a beautiful person, caring for helpless and helpless people, giving family happiness and joy to women who want to become mothers. ## A person who gives us hope.

***Quliyeva Fatimə***

Our child was born 1 year later. My husband Ramin was treated. With a diagnosis of erosive dirt.

Zarifa mother ... Meeting this person was a gift from God to me. Sentences or lines does not enough to talk about Zarifa mother's strength, light and humanity. I have been married for a year, but I have no children. I turned to Zarifa's mother's hearth in hope. After examining me and my husband with her bright eyes in a dark room, she discovered that my husband needed treatment and said she would treat him. She healed him with her healing hands, and I soon became pregnant. This was the beginning of the miracles I would see from Zarifa mother. My pregnancy

---

was a tube pregnancy. We were very scared. Although the doctors advised the operation, Zarifa's mother removed the fetus from the tube with her healing hands and performed an incredible miracle. During 9 months of pregnancy, I was under the care of Zarifa's mother and had a healthy pregnancy, benefiting from the healing of her hands. She blessed me on the way to my birth and put her healing hands on my face. Thank God I had an easy birth. Today my daughter is 1 year old and I take her to Zarifa's mother's house from time to time. May my daughter Fatima feel the warmth of her hearth and enjoy the healing of her hands. Every time I wait in line for a reception, I witness how people talk about her, her healing and miracles with confidence and love. She saved several childless families from disintegration and cheered their homes with the sound of babies. She correctly diagnosed the patients' pains and healed them. There are many people in my family and relatives who were saved by Mrs. Zarifa's healing. Zarifa mother is also a very beautiful person. It is not enough to talk about her help, free treatment for the needy.

Today, if thousands of families have children's laughter and family happiness, it is thanks to you! You not only make a woman a mother, you make a family and even a generation happy!

My dear mother, whom I love as much as my mother! You are my daughter's most eager grandmother. Thank God that he gave her as a mother to us, to our people. He gave her this power, this light.

It's good that you are there, Zarifa mother. May the light of your eyes and the healing of your hands always be upon us. I kiss your healing hands!

I wish your life would never end  
Do not let the thorn sink into your hand  
May those beautiful eyes always smile  
Don't let your heart know what sorrow is.

How many people do you hope for  
You are not everyone, you are one in a million.  
You are both holy and miraculous,  
You are both simple and unsolved mistic.

You are a gift from God  
Praise be to God a thousand times.  
You have come to the world we are in,  
May you sacrifice your life for the world.

I have been married for 9 years. But we did not have children. Over the years, I have been treated by several well-known doctors. But none of them worked. My husband was told, "It's very weak, the sperm is zero." We worked hand in hand to find solutions. My father gave me money and helped us go to Iran. But this time we came back empty-handed, empty-handed and resentful of life. At the time, it seemed to me that I was the most miserable person. Until he recognized Mrs. Zarifa. My colleague Gulkhanim was at the reception of Mrs. Zarifa. She knew how miraculous she was. I no longer believed in anything. She almost forcibly sent me to Mrs. Zarifa. I was shocked by what Mrs. Zarifa said when she turned off the light and looked at us. Because, for the first time, a man said "healthy" to my wife. It was not easy to believe. But he would make us happy not only with her words but also with the result of her hand healing. She wrote me for treatment and said: "Your pipes have been washed and damaged. It's up to God. But come on, go. I will try to help you. " Although these words give me hope, those who have not been able to have children for many years will understand me. Gradually, people lose hope. I came for treatment for 3 days. It was June. I came once in July. August was the month I received the happiest news. The news that I will be "Mother". There were those who rejoiced at this news and those who did not. I came to Mrs. Zarifa for nine months and my son Elmar was born. Now I kiss her healing hands every time I see her. Because I am indebted to those beautiful hands for my happiness. Now Elmar has a beautiful 2-year-old sister. I will be grateful to God in heaven and to Mrs. Zarifa on earth for giving us this happiness for the rest of my life.

## A person who brings joy to our family

I, Rena Nabiyeva, a resident of Lokbatan, did not have children for 6 years after getting married. I think living with the longing for a child for 6 years, not being able to have it, is the most painful thing for a woman. I have experienced these bitter feelings for years and I do not want any woman to suffer so much. For years I dreamed of holding my baby in my arms, caressing and kissing him. When I woke up, I saw the bitter truth and cried inside. My heart was pounding when I heard the baby's voice and laughter. Every day I stretched out my hands to God and wished that my dream would be real, that I would embrace my child and become a mother. I waited patiently. I did not know the reason.

One day I heard about Mrs. Zarifa from our close relatives. I came to his reception. After examining me, Mrs. Zarifa found out that the main reason I

could not stay with the child was that the needles in my tubes did not absorb and held the tubes. Mrs. Zarifa took me for treatment and I came to her sessions. After 3 sessions, I stayed with the child. My pregnancy was normal and was always under the supervision of Mrs. Zarifa. Finally, 9 months later, my daughter was born. We named her Zarifa.

I, Zira resident Babayeva Samira, had not had a child for several years after I married Babayev Hijran. There was no treatment. We heard about Mrs. Zarifa from our relatives. We came to her reception. This God-given, bright-eyed woman examined me and said that I had a cold and a problem with my pipes. She took me for treatment. After 3 sessions she gave me, I got pregnant and 9 months later, in 2002, I had a daughter. We named her Zarifa. Later, thanks to Mrs. Zarifa's treatment, my daughter Arifa was born in 2003, and my son Rufat was born in 2006.

May God be pleased with Mrs. Zarifa. There is no limit to the joy she brings to our family.

I, Mammadova Tabriza, had not had a child for 2 years since I married Mammadzadeh Alakbar, a resident of Hovsan settlement. Or rather, there was a child, but he did not stay. During the two years we were married, we suffered the pain of losing a child. Each time, we looked forward to having children. And in the end ... Again, despair, tears, grief ...

One day we heard about Mrs. Zarifa from our close relatives and came to see her. Mrs. Zarifa examined me and said that I was having a blood clot. She took me for treatment. After 3 sessions she gave me, I became pregnant and 9 months later, on September 21, 2011, a daughter was

born. We named her Zarifa. Then, on April 11, 2013, I had a daughter. We named it Jasmine.

Today I am a mother of two daughters. The arrival of my two beautiful, honey-sweet daughters, Zarifa and Jasmine, named after Mrs. Zarifa, brought joy and happiness to our family. We express our gratitude to Mrs. Zarifa for this. God bless her.

## Divine skilled woman

I, Agasiyeva Maleyka, married Agasiyev Rahid in 2004. We didn't have children for 2 years. I went to the doctors a lot. There was no help. The doctors finally told me I was infertile. That is, my problem is infertility, and I will never have children. I was very disappointed. The decision I heard from the doctors, "You are infinite, that is, you will never have a child," turned my destiny upside down. I had heavy thoughts about myself. But I heard from our close relatives about Mrs. Zarifa. I came to her reception. She welcomed me very well. After the examination, she told me that the doctors had misdiagnosed me and that I was not infertile. Mrs. Zarifa said that I would have a child. It was as if the whole world had been forgiven to me. After 3 sessions she gave me, I had a child and on April 2, 2006 a daughter was born. Mrs. Zarifa named herself: Fatima.

## Healing hands

, Alakbarova Khuraman Abdullayev, had no children for 7 years after marrying Mirdamat. We applied to many clinics and doctors. But no solution was found to our pain.

7 years! 7 years without children! I still cannot forget the pain and despair of these years. Each time, unsuccessful examinations and treatments disappointed us. Hearing the word "infinite woman" could be a tragedy for me. Acquaintances and relatives comforted us by saying, "God is gracious!" And "Do not despair." But our hopes were dashed over the years.

## **May God protect you, Mrs. Zarifa!**

I was married for 2 years. Numerous examinations, treatments, and diagnoses made by various doctors did not yield any results. The treatments exhausted us materially and spiritually. But we endured everything and longed for children. The months alternated. There was no result. I didn't have a child. I consulted well-known doctors in the city, but to no avail. One day I heard about Mrs. Zarifa. Honestly, I was a little hesitant before. Then I decided to meet him. Thank God, I got pregnant soon. My joy knew no bounds. When I came to Mrs. Zarifa, I witnessed that many families also experienced this joy.

During her pregnancy, Mrs. Zarifa was not allowed to use any medication. She said that everything would be fine and that my healthy child would be born. That's what happened. My son Joseph was born. His arrival brought joy and happiness to our lives. My family and I are very grateful to Mrs. Zarifa for this. May God protect you, Mrs. Zarifa.

**Let's know everybody, My name is Hassan  
And Mrs. Zarifa is my grandmother!**

***Nəsirov Həsən***

Today, not everyone is fortunate enough to see and recognize the person I am going to talk about. Although I am a biologist by profession, I have never had any doubts about the existence of supernatural forces and their impact on people's lives. Perhaps, it is God's grace to the people of Azerbaijan that Mrs. Zarifa, known all over the world as "X-ray woman", gave it to her.

Our acquaintance with Mrs. Zarifa dates back to the beginning of 2014. At that time, my wife was suffering from kidney stones. It is true that this disease, which can be treated with medical methods, is not a big problem in modern times. But despite the fact that we treated 3 courses, the size of the stone was large (7 mm), so according to doctors, surgery was inevitable. Thank God, Mrs. Zarifa's healing hands came to our aid at that time. God willing, with the help of Mrs. Zarifa, one of the two stones was

---

soon removed from the kidney. At that time (March-April 2014) we learned about the future of our baby. Because one of the kidney stones was still present, doctors said that childbirth would not be possible and that the fetus would perish.

When the fetus was 6 months old, we went for an ultrasound examination on the advice of Mrs. Zarifa. Here, too, the doctors did not promise anything pleasant. I do not intend to reduce the cost of medical services and underestimate their work. The only reality was that because the fetus had "edema" (subcutaneous tumors in most parts of the body, especially in the head), doctors said it would perish, even if it was born incomplete. The strange thing is that when Mrs. Zarifa heard this, she was worried and said that the doctors were wrong. (P.S. later found out that Mrs. Zarifa said these words so as not to frighten us).

Anyone with medical knowledge, especially mothers, knows that during pregnancy, double action is required for all organs, especially the liver and kidneys. On the one hand, the problem of kidney stones, on the other hand, the edema of the fetus worried us a lot, creating the idea that the child would perish.

Thus, 9 months passed. Our house was lit. Our baby was born. Everything happened as Hasan's grandmother, Mrs. Zarifa, said. Hasan had no signs of edema. Our healthy, beautiful son was born. Mrs. Zarifa later told us that there was indeed edema in the womb. Only Mrs. Zarifa removed it with her healing hands. Mrs. Zarifa before the birth to Hasan and observed him in her womb with her innate talent, said that she was a beautiful, long-haired, white child. Indeed, Allah gave us such a child thanks to Hasan's savior.

Today, we often visit Mrs. Zarifa, enjoy her sincerity and gentleness, take advantage of her advice, and use her examination and treatment. May God

---

not see this phenomenon lady to our people. Mrs. Zarifa, we love you, we will be grateful and indebted to you for the rest of our lives.

I, Jalilova Maya, have been married since August 2007. Until 2011, I visited many places from time to time. After the necessary analysis and treatment, I was left without results. According to my doctor, because I was a blood relative of my husband, I received the answer "you will not have children."

My husband and I did not give up. We decided to take the child if necessary. But after coming to the reception of Mrs. Zarifa, we hoped. Our hopes were not dashed.

---

On October 26, 2011, my first child, my daughter Saida, was born. The joy of our family knew no bounds. The first grandchild was born in our house.

On March 1, 2014, our second child, my son Said, was born. Most importantly, neither I nor my children needed medicine anymore. Of course, as a result of periodic examination and treatment of Mrs. Zarifa.

I personally have no doubt about her diagnosis. She told us that your problem is not kinship, but time. That's what happened. The treatment I received in time solved everything.

As a family, we are grateful to God in heaven and to woman on earth, Mrs. Zarifa.

By God, Mrs. Zarifa was sent to us as a mediator. In July 2014, I came to see Mrs. Zarifa for the first time. I got pregnant after 3 sessions she gave me. Mrs. Zarifa treated me for 9 months and I had a son. Mrs. Zarifa named my son Galib. My son is currently 1 year and 4 months old. I, Mirzayeva Gunel, have not had a child for 5 years after marriage. In other words, there is no place for Turkish doctors, Iranian doctors and Azerbaijan not to go. Examination and treatment of selected doctors in many countries were ineffective. My dream of becoming a mother was fading before my eyes. I was helpless. My sister-in-law Gulchohra advised me to go to Mrs. Zarifa. I went to his reception. Mrs. Zarifa looked at me, and after examining me, she said that I had nothing. I was under the control of Mrs.

## **Our healing angel Mrs. Zarifa**

Mrs. Zarifa, who created miracles, also gave our family a miracle with her healing hands and bright eyes. When I met this lady with incredible divine power, I had been married for 3 years. Although I consulted with various doctors, no exact diagnosis or reason was given. There was no hospital door we didn't touch. Each time, our hopes were dashed. I spent the best days of my life in treatment and medication. These treatments did me no good. At a time when all my hopes were about to disappear, I heard about the miracles of Mrs. Zarifa, and I knocked on the door of hope with the intention of finding a cure. After examining me, he invited me to his sessions. After a while, I learned that I would be a mother. As a result of these healing hands, I was reunited with my Murad. Murad's arrival brought joy, happiness and new breath to our family. Increased desire to live. We are always grateful to Mrs. Zarifa for this endless joy. Today, each member of our family prays to Mrs. Zarifa and expresses her gratitude. May our God always protect her and give her long life, so that the angel of healing, this beautiful lady, may bring joy to families longing for children like us.

## Healing hands

***Nağıyev İsmayıl***

First of all, I thank God, who created us, for giving our nation Mrs. Zarifa, whose eyes are X-rays and whose hands are a source of healing.

When I was 9 years old, my mother took me to Zarifa Aliyeva, not to the doctor. Each time, I found healing in his miraculous hands. I am now 25 years old and we still go to Mrs. Zarifa with any family complaints.

I also won the biggest gift in my life, my son Ismail, with the treatment of Mrs. Zarifa. I got married in March 2015 and in July of that year I applied to Mrs. Zarifa because I was suffering from back pain. When I went for a check-up a month after receiving my treatment, I learned that I was already pregnant. During 9 months of pregnancy, I did not go to the ultrasound examination or any other doctor, only by going to Mrs. Zarifa once a month, thank God I took my baby in my arms safely.

Not everyone has the heart to accept Mrs. Zarifa. I consider myself one of the lucky people because I believe in the miracle of God, and thank God that we do not know doctors, injections and medicines as a family. We all wish Mrs. Zarifa a long life and good health.

May God not deprive Mrs. Zarifa of the head of our nation. Amen.

***3 years later***

I have been married for 3 years. I didn't have a child. I visited many doctors and received various treatments. But I did not see the benefit. I took a lot of medicine for each treatment. Believe me, I was tired every time I took medicine. One day I was told that there was a lady named Zarifa near the Gara Garayev metro station. She is called "X-ray lady". She turns off the light, looks at you, and tells you what's wrong. My mother-in-law and I went to see her on January 26, 2014. She received us and looked at me. She said I have a simple cold problem. We will solve it! He asked me to come for a course of treatment. I came to her sessions for 3 days. I tested after those 3 sessions. I could not believe my eyes: the test was positive. I was very excited. Then I called Mrs. Zarifa and informed her. She was very happy and told me to come with a test for a week. A week later I went to her reception. She treated me again and said congratulations - you are pregnant! I was waiting for that word. Finally, Mrs. Zarifa told me that you

would only listen to me. You will not go to the doctor. Let me know what the problem is. For nine months, I visited her once a month. So, nine months are over. I became a mother! On October 12, my son named Alakbar was born: 4 kg 400 grams. By natural birth itself. I am grateful to God in heaven and to Mrs. Zarifa on earth for this event. May God make everyone happy. Amen!

## We are so thankful!

We met Mrs. Zarifa in 2000. We have been married for 3 years. We didn't have children. We visited many doctors. My aunt was at Mrs. Zarifa's reception. She told us that there were people who came to Mrs. Zarifa for a child. She also advised us. We also went to her reception. After examining me and my husband, she said that, God willing, you will have a child. After the treatment of her healing hands, we achieved this dream. My daughter was born on May 22, 2001. My husband intended that if we had a daughter, we would name her Zarifa. May God grant Mrs. Zarifa good health and long life. May she always have a happy day for her family and children. Amen

I, Aytaj Azimova had no children for many years. I went to many doctors and treatments. There was no benefit. After many years of examination and treatment, I was completely disappointed. I was already upset with my life and bowed to my fate. I thought that infertility was my destiny, and I had to live with it for the rest of my life, longing for a baby.

I got information about Mrs. Zarifa through our acquaintances. We came to the reception of Mrs. Zarifa. After 3 sessions he gave me, I stayed with the child. When I was in Moscow, I was told that the child would be ill. I called Mrs. Zarifa and told her about the situation. Mrs. Zarifa said come here. We came to Baku and the child was under the care of Zarifa Aliyeva for 9 months. In the end, the baby was born healthy. God in heaven and Mrs. Zarifa on earth gave us this child. We named our daughter Gunuz. I kiss Mrs. Zarifa's healing hands.

## **Lady with a big heart!**

I have been married for 8 years. I have a 7-year-old son. I had not had a child for 6 years. I applied to several hospitals and women's clinics and received treatment. My husband and I went through many examinations and treatments to have our second child. We suffered materially and spiritually. Despite all this, we lived with the desire to have children. But all this did not help.

My husband's friend advised us Mrs. Zarifa and we came to her reception. After examining me, Mrs. Zarifa said that the treatment given to me was wrong. And he took me for treatment. I got pregnant 3 months after the sessions she gave me. I was without drugs and injections for 9 months under the supervision of Mrs. Zarifa. 9 months later, on April 19, 2016, a daughter of mine was born. We named her Fatima. Thank God, I have a very healthy, beautiful daughter. Therefore, I express my deep gratitude to God in heaven and to Mrs. Zarifa on earth.

I want to share with you my life story. I got pregnant after I got married. But there were no children left, they perished. May God not grant the pain of infertility to anyone. Rejoicing every time I heard that I was going to have a child, and then losing it ... It was a great sorrow. In desperation, I gave up hope. No treatment helped.

One day my sister advised me Mrs. Zarifa. I became pregnant in 2007 and came to see Mrs. Zarifa. After examining me carefully, she told me that I had a virus. I was under the supervision of Mrs. Zarifa for 9 months. I had a son 9 months later. We named it Ravan. In 2011, my second son, Nihad, was born.

I, Azimova Aynur married for 6 months. I didn't have a child. In fact, I realized that 6 months was too early for a family to have a child. However, I often had severe pain. I did not want to see a doctor.

I came to her sessions for 3 days and received treatment. Two weeks later I was found pregnant. I, Javadova Kamila married in 2007. I haven't had a child for 3 and a half years. I went to many doctors, received many treatments, gave expensive tests, and took expensive medicines. The doctors said that my husband had a low percentage and that I did not have enough follicles. We also did what the doctors said, wrote and did. Then we went to the doctor again. But all this was to no avail. All this was told to us at "Family Planning", "Elmed" medical center. But the result was not that. We are from Yukhari Shilyan village of Ujar region.

One day we went to the village. Our guests came from Zardab district. They told us about a lady named Mrs. Zarifa. We did not believe. But we thought we would go to her. Somehow, one day we were going from the district to Baku. We met a lady named Tarana on the bus. We told him

---

what had happened. Ms. Tarana said that she knew Zarifa Aliyeva very well. She gave me her address and phone number. She said, "Go to her." You will not regret. I also took my husband and came to Baku to see Mrs. Zarifa. She received us. Everything was wonderful. She turned off the light, saw our illness, and said that my husband had nothing. But I have a problem: I have a dirty bed of fibroma nodules in my tubes. Mrs. Zarifa started treating me. After those treatments, that is, after the sessions given to me by Mrs. Zarifa, I began to feel a change in myself. Towards good. After 5 sessions she gave me, I became pregnant for 3 months. Thanks to God above and Mrs. Zarifa below, I was already pregnant in 2011.

In 2012, four years after my marriage, I had a son. We named him Javad. Now, thanks to Mrs. Zarifa, I am pregnant with my second child.

May God keep Mrs. Zarifa alive and prolong her life. Be a sacrifice to her healing hands. May God protect Mrs. Zarifa's children and grandchildren and make them happy. I am very grateful, my dear, my eyes to Mrs. Zarifa. Thanks to her healing hands, I became a mother and my husband became a father.

Mrs. Zarifa, I am grateful to you all my life. O Lord, protect your daughter Mayilova Zarifa. Amen! Thank you!

***29.05.2014***

I Masurova Gunel married on June 13, 2013 with Mansurlu Deniz. I stayed with the child 2 months after our wedding. Eight days later, I started bleeding. I went to the doctor. They said that the child is not developing, it is necessary to have an abortion. I stayed in bed for a month, it was a black spot for a month, I was not anortized. When I heard about Mrs. Zarifa, I went to her. She turned off the light, looked at me, told me how many times I had an ultrasound, the doctors' decision to have an abortion, everything. She gave me a session for 2 days and I went to her every week for 4 months. After 8 months, I went to the doctor to determine the time of delivery. The doctors diagnosed me with high blood pressure, poor development of the child, double twisting, and a crooked baby. I was told that if this child was born, he would die or something would happen to me. I was told to have an emergency caesarean section.

---

I went to Mrs. Zarifa again and told her what the doctor had told me. When Mrs. Zarifa heard this, she became very angry. She told me that I would give birth to this child with a normal birth and that if I had a miscarriage, the child would be at risk. My water was opened on May 29. I gave birth to a boy with a normal birth in Shirvan city hospital. Doctors say such a risky birth is a miracle.

May God be pleased with Mrs. Zarifa. May we, the servants, not see our beautiful angel much. May your soul always be healthy and live a long life. We really need Mrs. Zarifa's miraculous hands. May my life be sacrificed for him.

## We are so happy.

***Mammadova Zahra***

I, Mammadova Aynura married on December 13, 2009. One year later, I saw that I could not be a mother and went to the doctor. The doctor told me, "It's ugly, the uterus is crooked, and so on." He said the words, 2 sheets he wrote face-to-face treatment. I did not do those treatments. I came to Surakhani to see other doctors. I was with two different doctors. They both said the same thing, the follicle doesn't explode, it's ugly, and they prescribed treatment for the follicle to explode. I did one of those two treatments. After 3-4 months of treatment, the doctor got angry and asked me why I couldn't be a mother. I also said, how do I know why? You are a doctor, you should know. I also stopped treatment after that. Then I was told to pull my back. I also pulled my waist 4 times at different times. After a short break, I went to another doctor they praised in Surakhani. This doctor prescribed treatment for both me and my wife. I was treated by this doctor for about a year and a half. I saw that I could not be a mother again, so I stopped treatment and did not go to him. After a short break, I was advised by a doctor in Mardakan. I went to him. The doctor prescribed many treatments for my ovaries. He treated his first childhood. The second one

---

buckled my ovaries. I went to the buck for 20 days. Then he wrote for 20 days. I was also taking medication. Then he sent me to Baku to swallow my pipes. I swallowed three times. Swallowing is a very painful thing. I died and escaped death. After swallowing, they prescribed treatment. I showed the treatment to the doctor. The doctor said that one of my tubes was wide but separate and the other was narrow. Still wrote the treatment. He saw that nothing was taken. He said to take a break for a year, then let's treat. But I did not go to this doctor again. After a while, I went to a doctor known in the city. I took all my papers with me. This doctor also said that I had a curvature in my childhood, the follicle did not explode, I had a cyst and so on. After a while, seeing that the treatments had no effect, I said that there were two ways: either artificial insemination or surgery. I underwent surgery because we did not agree to artificial insemination. This doctor assured me that I would be a mother 7 months after the operation. But I still couldn't be a mother. The doctor said I had no problem and sent another man to the doctor. There we were both treated again. After the operation, we received treatment with this doctor for 1 year. But I still couldn't be a mother. After that, I stopped treatment and lost all hope. But my husband continued his treatment in Mardakan. He said that after the treatment, both of us were clean, that is, we could have children. And he told us to pray to God. We also stopped for a while, did not go to him.

Then we went to another doctor in Mardakan. I took all the treatment papers I had done so far. The doctor looked at the papers and said that you will never be a mother again. He advised me to get artificial insemination. I came home crying.

One day my aunt called me and said that one of her relatives, a doctor, had been skilled by God, her eyes were X-rayed and her hands were healed. She was treated and had a child. She treated many such children and other diseases. I also asked his name. She said that her name is Mrs. Zarifa. I also said that I knew such a doctor, how many members of

---

our family were treated by him. But for a long time. One of our relatives also received treatment to have a child. She currently has two children. We were just told that Mrs. Zarifa was no longer here, she did not work here. That's why we didn't go. On the morning of the day we talked with my aunt, we went to Mrs. Zarifa. Mrs. Zarifa received us. I was very happy. I became pregnant in the 7th month of treatment.

With the help of God and the healing hands of Mrs. Zarifa, my daughter Zahra was born. Thank you very much, Mrs. Zarifa. God bless you. May God not deprive you of our heads. Amen! God bless you. May God always make you smile and make you happy because we healed the sick. The more I thank you, the less.

Thank you! Be there! Thank you very much!

The most important thing was that many examinations could not find the cause of my pregnancy.

One day, an acquaintance gave me a book about Mrs. Zarifa. As I read the book, I became interested in this wonderful lady. My husband and I learned the address and went to see Mrs. Zarifa. She greeted us with a smile and sincerity. She examined me for the problem and said that I could be a mother. At that moment, it was as if the worlds were forgiven to me. Treatment began. ## **Mrs. Zarifa, given by God to people**

After we got married, we had no children for a while. My wife and I went to the doctors. Numerous tests have shown that I have very serious germs in my blood. We started treatment in this regard. However, the drugs did not have any effect. We were in a very hopeless situation. During this period, ie in 2011, we appealed to Mrs. Zarifa. Mrs. Zarifa, who examined me, took over my treatment and treated me with 2 courses. Her treatment soon paid off. In 2011, with the help of Mrs. Zarifa, two sons were born: Ismail and Safar.

Dear Mrs. Zarifa! I owe you my children and my health for the rest of my life! Thank you very much! Angel-hearted Mrs. Zarifa!

## The owner of the hands which changed my life

*Aliyeva Suada*  
*2 years later*

After I got married, I faced a lot of problems. I was surprised that women who got married often went to the doctor. Don't tell me, I had to live it too. My family's desire to have children forced me to see many doctors. Each time, I was given different diagnoses and new treatments.

Finally, my wife Babek and I heard about Mrs. Zarifa's miraculous treatments, and in 2016 we went to see her. Mrs. Zarifa examined me, did not agree with the diagnoses and told me that I could have a child. We started treatment sessions. We took a 2 course treatment session and in 2017 my daughter Suada was born!

Dear Mrs. Zarifa! I am a happy woman and mother. Thank you for giving me this wonderful life!
